
Organize your life with this latest version of IBM Lotus Organizer. The organizer offers a host of new tools and features for mapping out people, places, and things; an improved interface; and some fun extras like customized skins and music playback. This new version is available as a free download for Windows XP, Vista, and 7. It is also available for Mac OS X 10.4 and above via the Mac App Store ([link to download page](#)).

The IBM Lotus Notes Client provides a means of connecting to your Lotus Features. The version of this product that shipped with the Notes Client was version 8.3; NoteConnect includes upgrades for this product and can be downloaded from Lotus notes via the following link: http://www7.ibm.com/software/lotus/en/downloads/lotus-notes-client-7.0-2750_v7_0_7_3_00.html The IBM Lotus Notes Client provides a means of connecting to the Lotus Domino Community. The version of this product that shipped with the Notes Client was version 7.0; MacNoteConnect includes upgrades for this product and can be downloaded from Macromedia via the following link: http://www.macromedia.com/devnet/devtool/?devtool=devhelp&p=/devnet/html/Software_and_Uutilities/Macromedia_DevTools.html#Software_and_Uutilities Installing Lotus Notes Connect depends on the platform, you are installing it on. The following table outlines the different installation processes possible for each version of Notes Connect. Notes Client Version 7.0 ships with Lotus Organizer 6.0 and is available for download via this link: [IBM Lotus Notes Client 6.0 - 7.0 - 7.5 - 8.5](#) IBM Lotus Notes Client 8.5 supports versions 6, 7, and 8 of Organizer 6, 6i, 6v2 respectively, so upgrading Organizer 6 or 6i to version 6v2 does not require immediate upgrade of the client software to 8.5.

IBM Lotus Notes Client 8.5 supports versions 7 and 8 of Organizer 7v2, so upgrading Organizer 7 to version 7v2 does not require immediate upgrade of the client software to 8.5

IBM Lotus Notes Client 9.0 supports version 8 of Organizer 8 and so on... The two most common reasons that most people use Notes Connect are: Notes Connect is sometimes used as a stepping off point to upgrade your client software to the latest version (this process can be done either by upgrading your Notes client or upgrading Organizer separately); it is best to install the most current version of both Notes and NoteConnect for this process.
